Fresh-Bites website

Fresh-Bites is a recipe and ingredient ordering platform developed using HTML, CSS, JavaScript, PHP, and MySQL on XAMPP. It features secure user authentication, recipe browsing, dynamic cart management, and a complete checkout system. An integrated admin panel was built to monitor user activity, manage orders, and track recipe details with a responsive multi-page UI.

Secure E-voting System using Iris Recognition

Developed a secure online voting platform integrating Python and SQLite for back-end data management. Designed and implemented the front-end using HTML, CSS, and JavaScript for user-friendly voting interactions. Contributed to building the iris recognition-based authentication feature to ensure voter identity verification.
